Letter from our Founder

Dear Friends and supporters,

As we enter our 3rd year, FWB's commitment to come up with solutions to tackle community's pressing problems of poverty, illiteracy and social justice by empowering young people in Haiti continues to shape our path every single day. This would never be possible without our body your support.

This year, we have worked on several projects impacting the lives of thousands of young people in different communities. From prison system to local communities, we encompass our efforts to make life better for youth in deprived situations. Every single day, our team goes for broke to create a fair and peaceful society for every young woman and man who faces poverty, social exclusion and economic deprivation.

Even though the situation is still daunting, our team remains committed to make life easier, better and fair for millions of our young people. Please, enjoy this second edition of The Builders which highlights our achievements, projects and programs from 2020 to 2021. We are grateful for your support and hope that it will continue in the next year for the benefit of the youth and the communities we serve.

Sincerely!

Moselyn JEAN, Founder and President
