Our Mission

FWB (Fair World Builders) is a local based non-profit organization with a clear vision for communities in Haiti to improve their educational level, increased economic security and promote social inclusion. Our mission is to come up with solutions to tackle the pressing problems of illiteracy, poverty and social discrimination by empowering young people.

Founded in 2019, between students from different universities (State University of Haiti, University of Notre Dame d'Haïti), FWB offers the following: Young inmates program, youth empowerment program, community development program and climate program.

Our core values include Inclusion, Respect, Fairness, and solidarity.

Letter from Founder

Dear Friends and supporters,

As we enter our 2nd year, FWB's commitment to come up with solutions to tackle community's pressing problems of poverty, illiteracy and social discrimination by empowering young people in Haiti continues to light up. This would never be possible without our strong ties from partners to beneficiaries.

This year, we have worked on several projects impacting the lives of thousands of young people in different communities. From prison system to community development program, we embrace the challenges of making life better for youth in deprived situations.

As we keep in mind our vision and mission, and our commitment to turn them into action, let's enjoy this first edition of The Builders which highlights our achievements, projects and programs from 2019 to 2020. We are grateful for your support to our girls, youth and the communities we serve.

Sincerely!

Moselyn JEAN, Founder and President

Young Inmates Programs

Young Inmates programs provide young inmates with educational skills, legal and psychological supports so that after releasing they can divert themselves from a path of crime to a path of self-reliance. Young women and girls in prison are our primary beneficiaries.

What we do...

Youth inmates' empowerment

Believing in young people's ability to heal from a bad situation, our team tries to listen to them and find out where their true lack laid and carry out new ways to support them to do better and become better.

Youth Inmates psychological support

Our team hires psychologist with the purpose of helping those with mental illness. Furthermore, our doctors provided free healthcare so that those with illness can be cured.

Youth Inmates legal support

With our lawyers, our team solved 5 cases of pre-trial detention where these young people were put in jail without being heard by a judge.

On November 2019, we launched this program in the Cap-Haitian civil prison with the purpose to provide education skills, legal and psychological supports to young people in the Cap-Haitian civil prison. Our first achievement is that: 5 young people have been released and 50 have benefitted from our psychological and support.

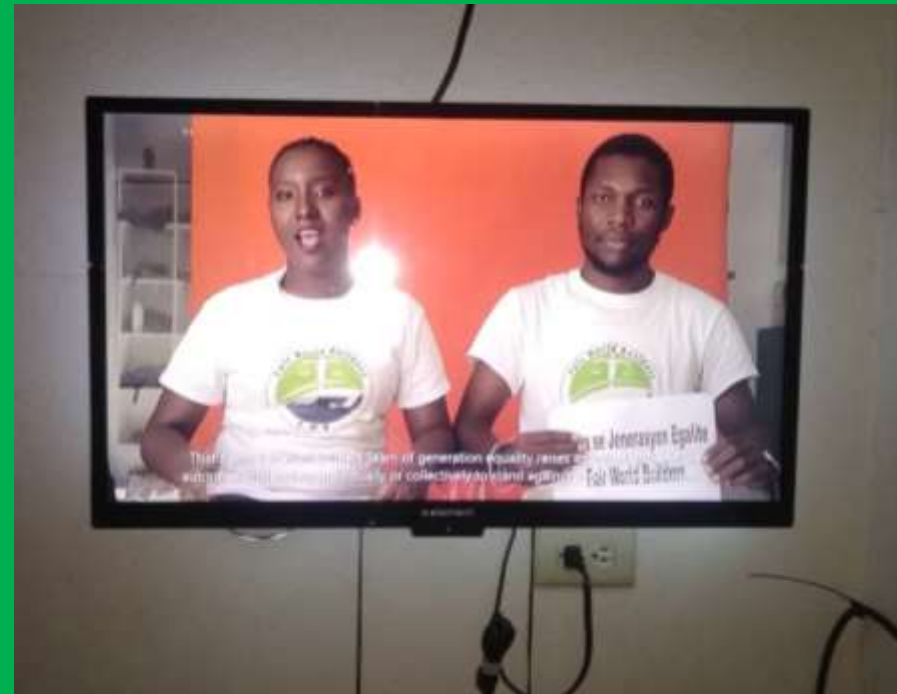

Youth Empowerment Program

In this program, our team empowers young people to be leaders of change in their communities. Each leader with a vision of change has been mentored and found out new ways and strategies to change their passion into action.

At the dawn of the international day for the elimination of violence against women, Fair World Builders released a viral video highlighting the necessity to speak up for change when it comes to violence against women as generation equality.

Right after that, our young women and girls participate in some castings just to sensitize communities about steps to prevent violence and promote women's rights.

What we do... Our impact...

Advocacy

On November 25th, 2019, our team released the first video advocating for the elimination of violence against women where we ask women to speak up at any time they have been bullied or raped. With this video, we have reached thousands of young people and this was posted on UN women Facebook page.

On May 8th, 2020, our team advocated in media radios in Cap-Haitian just to speak up for women's rights violation and system improvement.

Health Program

Our doctors and nurses are committed to making Haitian lives better in providing them with the medical support needed to stay healthy.

Our health program provides young people and those who live in deprived communities with medical support they need to stay in good shape.

In 2019, our action in Cap-Haitian civil prison provided healthcare supports to more than 50 young inmates.

FWB Community

These achievements would not have been possible without our team members. These young people were committed to making sure that we achieve our goals of the year and thrive to a better second year.

Friends and supporters of FWB

This Fiscal Year wouldn't have been possible without the huge support of:

Caritas through which we found funds in order to turn our passion into action;

Sonje Ayiti Organization (SAO) which helped our first action in prison;

Centre d'Encadrement et de Leadership (CEL) for providing our team with clothes and blankets in order to share with young people in jails.

Thanks!
